HINTS AND TIPS

Participation in PE and School Sport

- Your school has a future plan to deliver 2 hours of PE and school sport, inclusive of extracurricular clubs.
- Your school does deliver 2 hours in PE and school sport, inclusive of extracurricular clubs.
- Your school delivers 2 hours of PE within the curriculum and extracurricular clubs are in addition to this provision.

What percentage of children are engaged in extracurricular activities each week?

- What sports clubs do you run before school, at lunchtime and afterschool?
- Please keep and refer to the registers for accurate numbers where possible.
- These activities can be run by teachers or sports coaches, but they do not include holiday clubs.

How to work out the percentage %	Example
Number of clubs that run on a 'typical' school week	3 Football, Multi-Skills, and Dance
Total number of children that attend each club	Football – 10 Multi-skills – 10 Dance – 10 = 30 It does not matter if one child attends all 3 clubs, you would still count the total
Total number of children in Key Stage 1	120
How to get the percentage	$30 \div 120 \times 100 = 25\%$

How many intra-school competitive opportunities has your school provided for your children this academic year?

- Intra-school (level 1) competitions are within school only.
- They can be competitive games at the end of a unit of work, two classes playing against one another, or mini festivals / round robin competitions with one or more school years involved.
- You can include Sports Day in this too.
- NHSSP can provide this as part of an 'Activity Day'.

How many inter-school competitive opportunities has your school provided for your children this academic year?

- Inter-school (level 2) competitions are school vs. school events.
- NHSSP provides; Gymnastics, Olympic Legacy Event, Athletics (Year 2 only), and a Multi-skill festival

What percentage of children are involved in playground / sports leadership as a leader?

- Include all relevant data regarding leadership roles.

- Please keep and refer to the registers for accurate numbers where possible.

How to work out the percentage %	Example
Number of Play Leaders	15
Number of children that help on Sports Day	5
Number of children that help with warm ups	10
Number of children that set up and pack up equipment	10
Total number of children in Key Stage 1	120
Add these figures together and divide by number of children in KS1 to get the percentage	$60 \div 120 \times 100 = 50\%$

How many sports clubs / centres does your school provide links with?

- Does your school have any sports clubs or coaches that come into school to support with curriculum PE or extracurricular provision?
- Do you attend swimming lessons at a local pool with a swimming club?
- Has your school attended any local club venues? E.g.: Olympic Legacy Event at Letchworth Tennis Club.

Does your school use sports coaches in order to deliver additional extracurricular clubs for your children?

- What clubs are delivered by coaches? If you have two of the same sport running for different groups this can be counted twice. E.g. football for Year 1 and football for Year 2 = two clubs.
- These can be before school, at lunchtime or afterschool, but not during the school holidays.

Does your school feature event reports / results in the school newsletter or on the school website?

- You or a pupil could write an article for the newsletter which features the results and what the children did, with pictures if you have any. This could also include any PE / sport related social media updates.

How often do you promote PE and school sport to parents?

- Promotion of PE can be a wide ranging. Examples could include:
 - Sports club timetable
 - Any upcoming event details
 - Healthy living days
 - Promotion of local sports clubs etc.

Thank you for taking your time to complete this application. We will be in touch regarding your rating and your certificate will follow.
